

Tripoli and Western Media Desperation

Sort of like the recent 50 versions of the Bin Laden assassination story, don't you think? Initial reports that Gaddafi's son had been captured in Tripoli proved to be completely FALSE, as Saif al-Islam later took western journalists on a tour of Tripoli -- laughing all the way!

But could this be a new form of psychological warfare where capture equates with release -- much like American 'Liberty and Democracy' equates with a million dead innocent civilians, military occupation and the plunder/theft of invaded nations' resources. It seems the CFR controlled (desperate) US media is beginning to believe its own FICTION, or worse, are we?

All the errors and misinformation disseminated by the western media in relation to Libya recently indicates panic, desperation and of course, the usual INCOMPETENCE of US/NATO.

Nevertheless, the absurdities and inaccuracies of the western Media continue to go largely unnoticed by the lobotomised American public, but not so historians, semioticians and other analysts, all of whom are having a field day! What a circus!

The level of media incredulity has risen to heights never before imagined -- I have a camera mounted on the end of my dick as I write, so Washington can witness, first hand, events as they 'unfold.' I may also release some photo-shopped pics in support of my outrageous and preposterous claims!

But as any good analyst would inform you, every textual production, fiction or otherwise, reveals numerous Truths in the secondary layers of the text/discourse. 'See' if you are able to determine the facts/Truth buried in the many false media reports circulating about the 'fall' of Tripoli! The material masquerading as news in the western press today is so ridiculous it has become a great source of comic relief for veteran journalists and political commentators!

Gaddafi's son, "captured, under arrest," -- according to Western media -- I don't think so! Video created AFTER media reports!

Osama Bin Laden helped him 'escape,' didn't ya know? Meanwhile the US/NATO and UN are preparing for another destructive, civilian killing, 'humanitarian intervention' in Syria -- give the world a break, you murdering, thieving, LYING, bastards!
