

## Guess Who's ABOVE the Law, Suckers?

by sam Sunday, Sep 25 2011, 12:12pm

international / injustice/law / opinion/analysis

If you haven't noticed, the law against killing civilians in a war zone has NOT been rescinded -- killing innocent men, women and children, continues to be illegal but what do NATO and American leaders care, they have literally been getting away with mass murder/HOLOCAUSTS since Iraq.

On the economic and Corporate fronts, executives of large financial and banking institutions responsible for the GLOBAL economic collapse have not been held accountable, though it is widely known that FRAUD caused the collapse!

Borderless and stateless, Tax evading Transnationals, continue to pillage, plunder and POLLUTE entire regions while taking the LION'S share of the PROFITS offshore. Treasonous politicians and puppet governments, though pretending otherwise, no longer represent their nations but serve the Executive criminal class of Corporate buccaneers instead.

The number of serious CRIMES committed by white-collar criminals is staggering YET our regulatory and legal institutions seem oblivious or ineffective in dealing with the KNOWN criminals.

The popular '#OccupyWallStreet' ongoing protest is largely ignored by the Corporate media, especially when police brutality is involved. Nevertheless, Americans have FINALLY targeted the people behind most of the WORLD'S social ills today.

What has not yet dawned on naive protesters and organisers is that they are dealing with mass murdering criminals and thieves who stop at NOTHING to acquire what they want.

It may soon dawn on the 'brightest' among the protesters that the same tactics EXECUTIVE white collar scum employ around the world, via their proxy militaries MUST be applied to them; only when EXECUTIVES begin dropping like ducks in a shooting gallery will things begin to change, as it would force the rottenness and truth to the surface for all to see.

Actions against the ruling criminal executive class must be planned and undertaken in secret, leaving no traceable evidence. Long distance solutions involving a 30-06, range finder and good telescopic sight would seem appropriate -- YOU/we are dealing with the most heinous criminals the world has seen since WWII.

Protests, though well planned, should appear spontaneous and protesters should always outnumber police. Protests should be reinforced by waves of protesters appearing when needed and NEVER in ONE mass, which is easily contained by police. Waves of reinforcements, coming in stages from every angle serves to confuse and destabilise police, who work to rehearsed crowd control formulas and tactics.

Divergent social and community groups with varied agendas MUST form UNITED FRONTS whenever possible, as this puts the fear of God into the ruling elites. Their most powerful social weapon continues to be DIVIDE and CONQUER so it is IMPERATIVE to form UNITED FRONTS

whenever the opportunity presents, which should be OFTEN, as the nefarious executive class is the enemy of all people everywhere!

Always make efforts to enlist the services of specialists, veterans, engineers technicians, legal and media teams etc, etc, their skills are invaluable. And never forget to pack as much pimple cream as is necessary for every demo and shoot in the wild ;o)

The following video is a great lesson in how NOT to stage a PROTEST, Mr DeGraw -- your idea is good but your implementation is pathetic and unnecessarily places people in danger, as the video amply demonstrates -- this is WAR, morons.

In conclusion, Our legal team has advised that we state clearly that this piece is political humour -- and if that doesn't satisfy, then you can all go fuck yourselves, isn't that right, Mr Dick Cheney?
