international / injustice/law / other press

and I didn't intend to alliterate

Two news stories on the wire caught my attention as I was about to turn it in for the evening.

After NATO's many obvious attempts on Col. Gaddafi's life, which resulted instead in the heinous war crime of infanticide; and then the international airing (youtube) of Gaddafi's final grotesque murder at the hands of rebel killers, the totally politicised and partial ICC at the Hague has FINALLY arrived at the conclusion that Gaddafi's summary execution 'MAY' have been a war crime -- DOH!

The other sad case is of a young American hero and prisoner of conscience, Bradley Manning, now standing trial for allegedly alerting the world that the US military is guilty of committing war crimes. The irony of this tragic situation is that the criminal military is conducting the trial against this brave young hero. Fair trial? Not a 'snow flakes' chance!

*This is the same psychopathic, amphetamine soaked, steroid hyped, military that refers to innocent children and other civilians killed in illegal Drone strikes as, "**Bugsplat!**"*

That about sums up the lunacy and criminality of the world we live in today -- "BUGSPLAT," indeed -- you sick, sociopathic, vile, AMERICAN scum.

Go back to bed America your government are criminals! However, we all know the REAL truth that we avoid like the plague, we take what we want regardless of the cost in human lives and suffering, how dare the world resist our mighty empire!

Well, dreamboats, I have a message for all of you complicit criminals; the best of the best GLOBALLY are diametrically opposed to your DISGUSTING values and violent methods. They work tirelessly, in the foreground and background, to subvert your criminal rule and restore representative Democracy, Peace, Law and order to OUR WORLD -- the next knock on your door could be that reward you so richly deserve! Your fifth rate defences offer no resistance whatsoever; the world will be restored by the REAL elite, make no mistake. Your days of wanton murder, mayhem and destruction are numbered and you know it! Would you care for a [demonstration](#) ...?
