

The Hacker Elite - an Independent, Amorphous, Devastating Force

After decades of 'silent running' it seems the hacker elite is making its 'presence' felt and alerting lunatic warring States that they have unknown forces to reckon and contend with!

The downing of a low-orbit satellite, two 'lost' Israeli Drones over Gaza, the hacking and capture of a 'sophisticated' CIA UAV Drone by the Persians and the disabling of a CIA surveillance satellite in space - events that all occurred within weeks of each other -- clearly indicate a pattern that even an untrained observer could follow.

These related events indicate to trained specialists that the USA has been caught off-guard, ambushed if you like and judging by the lack of an appropriate digital response, America clearly lags behind the rest of the WORLD in the most CRITICAL theatre of modern warfare. However, it was expected, as *JUSTICE* -- a prime motivator for hackers -- offers no immediate monetary profits, commercial incentives or gains for the ruling Corporate and Banker elite. Corporate ruled America failed to notice the stealthy insertion of a barbed, digital dick in its arse until it was too late!

The usual incentives the US offers to enlist the services of the highly skilled - unlimited corruption money which it prints from thin air - is easily obtained by hackers from the same 'air' that digitally stores it; it is child's play to milk a criminally corrupt Banking system of the filthy money it creates -- it should also be noted that Bankers made a conscious decision NOT to focus on security, but instead to pay out funds lost to hackers, as it was considered the more 'cost effective' option! However, that may change in the near future as emerging 'armies' of younger hackers begin to assail the criminal Banking system. *[Reserve Banks have recently resorted to just 'printing' the difference lost to hackers and others; such is the IRRESPONSIBILITY and level of 'skill' criminal bankers display!]*

The hacker elite are therefore immune to the usual financial seductions or lures. Elite hackers also have high moral standards and adhere to strict ethical and operational codes, the ANONYMITY rule, which glamour boy Assange violated, at HUGE cost to himself, is SACROSANCT. Invisibility remains one of the most powerful weapons of the hacker elite. Indeed, few hackers have martyr complexes or severely flawed personalities like 'gifted' glamour boy (keep your dick in your pants) Assange, who set an appalling example for emerging hackers -- **the 'man' can't stop what he cannot see or detect!**

The pathologies that plague modern Americans are surprisingly scarce in the Elite hacker COMMUNITY. They are truly a 'breed' apart, in a word, EXCEPTIONAL; make no mistake, hackers are the vanguard of social dissent and EFFECTIVE opposition to criminal ruling elites today -- you reading this 'Occupy,' do-nothing clowns? Hackers work tirelessly to restore JUSTICE and BALANCE

to our world!

Hackers have demonstrated considerable personal restraint by directing billions in appropriated Bank funds to 'dev/null' (the digital void); a strategy that created all sorts of problems for criminal Banking cartels – it should also be noted that elite hackers via their social engineering and technical skills have infiltrated EVERY area of critical infrastructure from Banking/Financial to the military through to regulatory and 'intelligence' (moron) agencies; in fact, elite hackers continue to 'maintain' the most critical computer systems/networks throughout the WORLD – it all began in the early 80's and now it's over!

Imagine the 'red' phone in Washington/Moscow ringing and informing corrupt criminal politicians that their satellite GPS and other missile guidance systems have been compromised and that their nuclear armed missiles have been re-programmed – the morons in the US could risk a launch and watch as the nuclear missile turns and targets the Pentagon/Washington or New York City.

State and non-State players have recently DEMONSTRATED they lead the US in the most critical theatre of military operation.

"It was easy," one of our sources explained; while the pathologically avaricious 'PIG' (USA) was engaged in criminally bombing, murdering and stealing the resources of weaker sovereign nations without any *apparent* opposition, it became intoxicated and lost focus on important fields of operation. Blinded by arrogance, GREED and the **illusion of superiority**, the US failed to stay abreast in the critical area of cyber warfare and once a gap opens in this critical area it is rarely closed.

Hackers have compromised credit card chips, magnetic strips; various digital readers and writers/keys, in fact, any digital device you care to name that has any social significance. Technologies that enslave others free hackers, they remain the FREEST individuals on the planet.

I am forced to conclude it here though there was much more I would have liked to say but a previously agreed upon condition to publication arranged with our source must be honoured! However, the socially aware and tech-savvy would have no difficulty filling in the blanks.

So, have a nice day dreamboats and to the mass murdering, minority criminal cabals, you are going DOWN, as surely as the setting sun, you vile, criminal, filth!

[In a few short years 'we' have forced criminal elites to adopt desperate and draconian measures; information management/censorship, data suppression, rendition and torture, indefinite detention without trial (thought crime), genital groping at airports and all manner of offensive, contractive social policies – elites seem to forget that the human SPECIES is freedom loving by nature/INSTINCT; it will all explode in their faces soon enough and we can't thank them enough for doing all the heavy lifting, though it was all planned that way from the start, morons! Criminal elites have been well and truly fucked or 'rooted,' as we say in Oz.

*What are they going to do when **INDISPUTABLE** evidence and the Truth of 9/11 is made public, Mossad won't be able to help then!]*
