

## Gillard: Oz jobs culled by high Aussie Dollar?

national / social/political / commentary

According to Washington doormat PM, Juliar 'Goldman Tax' Gillard, the cause of local job losses is the high Aussie dollar not the despicable policy of Corporations (she serves) heartlessly dumping workers at the slightest whim. Oz workers are expected to be loyal, slave for corporations and endure reduced benefits, wages and conditions - their reward for making personal sacrifices their mangers and directors are loath to make, is the sack.

***Incompetent JuLIAR Gillard***

Workers are constantly told they must compete with Indian and Chinese workers who work like dogs for a bowl of rice, while bosses and directors show no restraint and shower themselves in HUGE salaries, benefits and bonuses. Well, Ms Gillard, *'you can't fool all of the people of the time;'* Australia is not the third world and Aussies have no intention of competing with traditional slave cultures!

Rather than address wealth disparity and inequity and the OBSCENE PROFITS foreign Corporations take off-shore, Gillard attempts to hide behind the high value of the dollar as the cause of job losses; furthermore, she predicted that the value of the dollar would in all likelihood remain high for years. So currency and employment problems must be addressed!

The safest and surest solution, as China has demonstrated by winning the globalisation war, is to control the value of your currency and set the most appropriate rate according to various economic forces. This is a PROVEN method of dealing with unemployment and remaining competitive.

Maintaining control of local currency ensures that sovereignty is not forfeited to rogues and speculators, furthermore it effectively castrates Wall St's influence in local economic affairs. However, a number of pre-conditions apply prior to successfully regaining control of the dollar and they are ECONOMIC and POLITICAL COMPETENCE, neither of which Howard, Rudd or Gillard have demonstrated. The last three Prime ministers have ALL excelled in taking orders and unquestionably serving the criminal United States, regardless of which Wall St PUPPET holds office in Washington.

Never forget that all Oz wealth and resources belong to the people not the rapacious Corporations and our competitiveness on the world stage is determined by COMPETENT politicians NOT currency speculators or incompetent, Washington DOORMAT prime ministers! I would add that elected government officials are traditionally charged with REGULATING the Banks and the Corporations NOT taking orders from amoral, profit-only-driven CEOs and directors. Neither of the two major political parties have the wherewithal to successfully lead the sovereign nation of AUSTRALIA that fact is painfully evident today.

And if local politicians continue to demonstrate servile attitudes to FOREIGN powers they will be dealt with in the harshest possible manner in the not too distant future.

Go Oz!
