

Nation in Crisis

Have you ever stopped and taken a GOOD LOOK at the current American leadership? Hillary Clinton, as Sec. of State, Panetta as Sec of Defense, Petraeus as CIA Director and of course Mr. Servile supreme, Obama, as puppet president! One overriding impression hits you immediately, what a bunch of LAME, INCOMPETENT, servile clowns.

Not one of these IDIOTS has ever had an original idea/policy in their miserable SERVILE lives, the entire Obama administration is pathetic BUT what is worse is the Republican runners -- my God, a nation on the ROAD TO RUIN!

This is what happens when you allow faceless minorities to constrain your political choices -- the CURE is simple, VOTE for a real MAJORITY REPRESENTATIVE, a true INDEPENDENT and boycott every candidate from all the major (owned) Parties. That advice applies to all western 'democracies' today!

What a bunch of hopeless, bereft, performing circus seals -- the standards have clearly hit the skids!
