US/NATO knowingly surrender Libya to Islamist Extremists and Terrorists

The CRIMINAL obscenity that is corporate and banker controlled NATO and the US and its maniacal pursuit of corporate PROFIT and plunder has resulted in the world's most ghastly, horrendous crimes and injustices today; the Iraq travesty of over one million innocent civilians slaughtered speaks for itself; Obama's flagrantly criminal 'precision' Drone warfare campaign, which regularly slaughters innocent children and civilians continues unabated; but the Libyan obscenity that NATO and the US unleashed on the once FREE people of Libya has set a new standard in absolute degradation, horror and inhumanity.

Libyan Rebels Desecrate WWII Allied Graves

It is abundantly clear that Corporate and Banker overlords have NO morality or a shred of common human decency whatsoever, the sooner they are dispatched the better. There are very good reasons (see below) why the Corporate mass media is reluctant to report the ongoing crimes being committed by NATO and US allies in Libya, which now extend to ethnic cleansing, routine torture and desecration of WWII allied grave sites -- they must protect their criminal monetary interests. Western Banks and Oil companies are doing very well but at what COST to civilised humanity!

"We have seen the enemy and the enemy is Wall Street and the global Reserve Banking Cartel!"

Report follows:

The Libyan [Jihadist] government has been "extremely apologetic" about the desecration of graves, in the eastern city of Benghazi, of more than 150 British servicemen killed in North Africa 70 years ago.

Headstones at the Benghazi War Cemetery were torn down and crucifixes smashed with hammers by a mob of extremists, some carrying guns and dressed in combat fatigues.

Amateur video footage of the attack, posted on social networking site Facebook, showed

men casually kicking over headstones in a war cemetery and using sledge hammers to smash a metal and stone cross.

One man can be heard saying: "This is a grave of a Christian", as he uprooted a stone headstone from the ground. Another voice in the footage says of the people buried in the cemetery: "These are dogs."

It is believed the attack could have been carried out by an Islamist group in protest at the burning of the Koran by US soldiers in Afghanistan last month.

More than 1,200 Commonwealth soldiers and airmen are buried in the eastern city of Benghazi. Of the 1,051 identified graves, 851 are British.

Many were members of the 7th Armoured Division, known as the Desert Rats, which played a key role in fighting for control of Libya and Egypt between 1941 and 1943.

The National Transitional Council, Libya's interim leadership since last year's uprising forced out Muammar Gaddafi, said it would pursue those responsible.
