

It's a Post Modern Anonymous World

Those clinging desperately to past structures and conventions (structuralists) are as doomed as the legendary dodo. I refer to antiquated oligarchs, plutocrats, Bilderbergers, Trilaterals, CFRs and other assorted ossified species! "We have seen the enemy and the enemy is LAME!"

FBI chief, Robert 'no hope' Mueller!

After prodding [teasing](#) that thin-skinned fairy, Bilderberger and Chairman of Google [censorship](#) and data management, Eric 'darling' Schmidt, and watching his big girl reactive antics to online criticism, it became abundantly clear that these 'barons' (lol) of industry and 'lords' of the world (rofl) are inept, fearful to the extreme, easily led/managed and very EASILY DEFEATED!

Even the likes of Mr Trilateral, Zbigniew Brzezinski, have missed the point, he's a tad too old to really be a natural (post modernist). Underground forces whether they are aware of it or not are living a post modern REALITY as actors/forces/agents of CHANGE. If intellectually capable, Brzezinski would care to study the various social and other dynamics involved he may realise there's no stopping these new forces with conventional, FBI, CIA, NSA, military etc, tactics or other ANTIQUATED, structuralist means.

Have criminal ruling elites not NOTICED how decentralised, amorphous forces, identified as 'no-one/EVERYONE,' present loosely structured but highly co-ordinated REAL threats to their jealously guarded, minority power 'structures?' *That was a rhetorical question but never mind, cos it seems they have, but they haven't seen the nano-half of it yet!*

Chief FBI moron Robert Mueller's recent address to Congress revealed that he imagines that cyber warriors will present the greatest threat to ruling civilian killing, mass murdering, terrorist Banking and Corporate CRIMINAL elites in the near future, he makes no attempt to hide who he actually serves -- thanks moron!

Mueller's alarmism is justified but he failed to outline just how he intends to fight a phantasm that packs a punch. His assessment may indeed be accurate but has he ever tried to fight the wind or a shadow that 'casts a human?' I think not, cos he works for the government -- ROFL! Recall your school days and remember the fifth-rate morons that pursued government careers and you'll get a

VIVID picture of the imbeciles that are running this country into the ground, to utter RUIN in fact!

But it is of no consequence because every social dynamic is self-creating and defeating that is why - in a post modern world -- it is important not to be a structured, identifiable entity of any type; pure force/action/skill, NOT identifiable form, are required in this brave new cyberworld of digital warriors and skilled 'technos.'

The corporate forces with which Mueller wishes to "connect"/work have already demonstrated they are VICTIMS of cyber warriors, especially the Corporates that feign IT security and intelligence gathering. ANONYMOUS has proven TIME AND AGAIN that these lumbering Corporates are run by lame, arrogant, incompetent DUNCES!

So please go ahead Mr FBI, we're packing shit! [The tremors you feel are your own, lol!]

However, we can't thank you enough for making it perfectly clear to the entire WORLD that you serve CORPORATE INTERESTS above the interests of the nation and people, you treasonous prick! No doubt there'll be a nice position waiting for you in one of the Corporations you are now serving when you get thrown out of the FBI for incompetence!

It should now be obvious that the emerging world you fail to understand will vanquish you, or rather, YOU have FAILED to maintain viability, therefore as an antiquated species you face extinction - a very natural cycle! Now go fuck yourself, lamer!

Don't forget to do your best, Mueller, the Banks and Corporates are depending on you - though your best doesn't even rate on our scale.

Quote from the linked piece:

"We are losing money, we are losing data, we are losing ideas," he added. "Together [with Corporatists] we must find a way to stop the bleeding."

Best of luck, cos you have no chance -- drop a pebble into a pond and you may understand why.

We are MANY - we are ONE - We are UNSTOPPABLE!

[Salutations to 'ferrite' - the first but not the last... and greetz to all the crewz - we are the vanguard!]
