

Digital Technologies have rendered the Geopolitical Redundant

by minnie *Saturday, Apr 28 2012, 11:39pm*

international / social equality/unity / news report

It's TIME to abandon notions of States, borders, nations and tribes - today it is the global masses, THE PEOPLE (debt-slavery/austerities/war) that have been TARGETED by minority ruling elites in whose interests divisive policies are maintained. Comprehensive global warfare has been waged on the entire global population by Transnational Banking and Corporatist elites for decades. Today it is CLEAR that global elites, who know no borders or recognise no flag, wage war against the PEOPLE of the entire WORLD. Take another look at the GLOBAL situation to verify the plain truth for yourselves.

It is therefore counter-productive to harbour antiquated divisive notions of nations/states, etc; it is chimera utilised to maintain global slavery and weak populations. All efforts today should be directed at fast-tracking the elimination of all social divisions and UNITING the GLOBAL POPULATION against a COMMON ENEMY. Digital technologies and the internet have transformed our world and our place in it - all borders and divides are meaningless to this new medium and so too should be OUR attitude to our fellow citizens of the world!

Journalists and others that continue to engage in divisive discourse that directly or subliminally reinforces notions of States/borders or other arbitrary DIVIDES are clearly enemies of the people and should be scorned.

All discourse and energy should now be directed toward garnering a global movement against the criminal Bankster elites - The Global Reserve Banking System MUST be totally OBLITERATED by any and every means available - the heart of the Beast presents as the easiest target; the flow of its life blood, money, is easily stemmed or made utterly worthless.

Withdraw your support from perverse systems and invest VALUE in YOURSELVES not worthless, enslaving paper!

We are MANY -- We are ONE - we are AWARE!
