

Tony Blair: “Poisonous Propaganda”

by peptide *Friday, Nov 10 2006, 8:58am*

international / social/political / commentary

Tony (45 mins) Blair, member of the coalition of willing criminals and terrified of the prospect of facing a war crimes tribunal, has today labelled the dissenting voice of opposition (justice) as “poisonous propaganda”. The world received this ridiculous statement with ample incredulity. We are all familiar with the politics of inversion and pathologically lying Prime Ministers (Blair and Howard) but this latest desperate statement from Blair even elicited a bray from the Whitehouse donkey, who is far too busy with his own problems to offer any assistance to his partner in crime. The three most notorious murderers of the 21st century, Bush, Blair and Howard are facing an extremely hazardous future!

Blair’s statement is the first indication of panic in the ranks of the fraying coalition. The facial expressions of the Australian Prime Minister, John Howard, since the trouncing of Bush in the American mid-term elections, also betrays horror, fear and foreboding. The coalition is unravelling! Rodents characteristically do not support each other in times of crisis, ‘see how they run’.

What fools these vain and deceitful puppet leaders are, the real instigators (criminal Corporate masterminds) remain faceless manipulators behind the scenes – they are very aware that the face of political leadership must change in order for things to remain the same. If the moronic masses demand blood, disposable politicians are fed to the lions and another deafening roar booms from the colosseum! The orchestrated fictions of WMD, aluminium tubing, 45-minute attack capability, uranium from Niger, mobile chemical weapons labs and a host of other fabrications have resulted in an illegal invasion and 665,000 INNOCENT IRAQI DEATHS!

Many disturbing nights and haunting nightmares of WMD, Paul Wolfowitz, Richard Perle and the master of “dark side” ceremonies, Dick (psychopath) Cheney, wait for our three puppet leaders.

It is without regrets that we remain obliged to pursue you Tony, John and George – did you think for a minute “you could fool all of the people all of the time?”

If you really wish to hear some ear-singeing “poisonous propaganda”, replay some of your previous speeches while you wait for the inevitable.
