John Howard, lackey Prime Minister of Australia and member of the coalition of willing criminals, today stated that he is “horrificed” at the loss of life in Iraq. In view of the fact that Howard, Bush and Blair are DIRECTLY responsible for the illegal invasion and the hundreds of thousands of subsequent deaths in Iraq, we are horrified that these men have avoided prosecution to date!

John Howard -- War Criminal and National Disgrace

The horror felt and shared by all responsible citizens across the globe results from the complacency and apathy of relevant authorities regarding the arrest of KNOWN war criminals, Bush, Blair and Howard. As leaders of their respective nations they must take full responsibility for their criminal actions.

The mayhem that is Iraq today presents the strongest possible case against those leaders who took pride in the illegal invasion. The public statements and speeches made by these criminal leaders remains on record and constitutes the most incriminating evidence available. In addition, these three puppet leaders would be able to provide a wealth of additional information regarding Corporate involvement in the illegal exploitation of Iraq's major resource, oil. It is time to rout the rot!

The public interest would be well served by exposing the filth that lies behind the rule of so-called 'democratic' government. The populations of these three nations would welcome justice being served and a future free of criminal government.

Major 'opposition' parties offer no viable alternative as they too are subject to the same forces that manipulate serving governments.

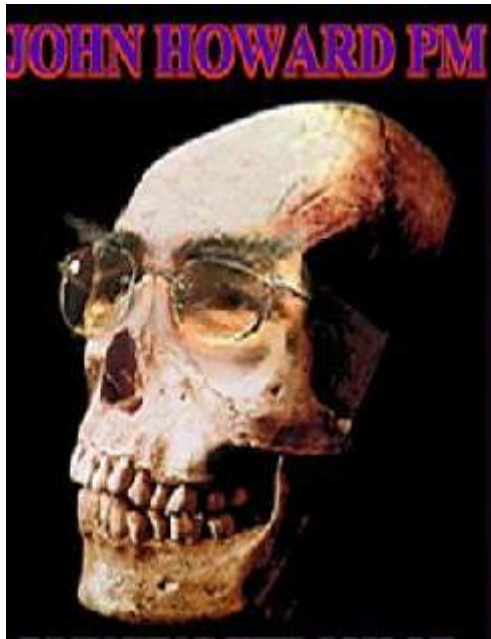

It is time for REPRESENTATIVE government of the people by the people. Choose your representatives outside major political organisations, all major parties have been thoroughly corrupted and offer no real improvement. Harken to the representative voice not the manipulative rants of liars, cynics, deceivers and criminals. Today, leaders with integrity are easy to identify, they will speak the plain truth which is obvious to all; they will demand and ensure that previous puppet

criminal leaders are tried for their crimes and that other involved parties are held accountable.

Choose wisely the future world in which you would live; some would offer you a living hell, others would heal and reconcile. At no other time in modern history has the choice been easier. If the criminal powers continue to deceive or resist the will of the people, reducing the general level of participation (boycotting elections, reduced work production etc) would send a clear message that the support of the people has been withdrawn. The 'affairs of state' would be severely debilitated as a result of civil opposition/disobedience. The future is YOURS/OURS!

WE are ONE

Peace.
