

What's the Death Toll, Mr. Bush?

The ever increasing, unmentionable death toll of U.S. military expansionism in the Middle East, Eastern Europe and elsewhere exceeds one million souls. The human casualties have achieved unification and consensus at last! The slogan of death is unutterable, perfectly silent and devastatingly effective! Devoid of tribe, nation, race, religion and every other divisive factor that contributed to their demise, all humans are united in death – they are finished! In death there are no ideologies, 'critical issues' or causes.

The American ideology

The U.S. Department of Defence (DoD) has recently 'exposed' Under Secretary for Policy, Doug Feith, for manipulating, exaggerating or otherwise LYING to Congress regarding a terrorist link between al-Qaeda and the regime of Saddam Hussein. Information on this matter and the LIES surrounding the WMD case for war has been in the public domain for years but seems only to have been discovered by Congress investigators in the past few weeks – give us all a break! These absurd delaying tactics only confirm the USA as possessing a single ideology of military expansionism, plunder, conquest and the imposition of American values on other cultures and sovereign nations. George W Bush got it right, he just did it badly. These pathetic transparent tactics may deceive the American public but be assured they do not 'cut it' elsewhere.

Russia and China have recently confirmed support for Iran with weapons sales and other high tech assistance designed to target shipping in the Persian Gulf and defend against enemy aircraft. The Russians have learnt after the monumental blunder of surrendering the Balkans to western powers. Today American anti-missile installations, targeting Russia, have been installed in Poland and the Czech Republic! The USA's strategy is obvious if not crude, it does not hide the fact that it intends to engage in a last ditch war with the Sino-Russian alliance for world domination. The fact that this aim is totally insane is lost on the American public. The world's most aggressive, rogue, criminal state today is the USA; the death toll tells the story – the smell of death follows America everywhere!

Has it occurred to the geniuses in Washington that no power in human history has prevailed against the world? Aside from Israel and perhaps the UK, America has no effective allies. It should not take too long (after Blair's tenure) for Britain to wake up to the fact that it is part of Europe!

One does not need the title of soothsayer or prophet to read the obvious. America, the hated nation will be rased to the ground. What a perfect tragedy, so many souls lost for the want of good leadership! No nation or person has the right to impose their values onto another – a lesson America is yet to learn.

It should be noted that China and Russia do not desire war nor do they engage in military expansionism; today there is only one rogue, invasive, expansionist, plundering nation – AMERICA!

The death toll speaks louder than the lies; American 'diplomacy' is WAR – the way of the gangster and brute. America will go the way of all criminals – a fitting end awaits a murderous nation.

A nation intoxicated on its own power without regard to the strength of other nations is doomed. Theorists, analysts and commentators unaware that nihilism is the culmination of capitalism, be aware!

America races to oblivion; it plainly seeks the false peace of entropic dissolution!

High cost of failed leadership
