

Haneef: leaked transcript incriminates Howard government

by peptide *Tuesday, Jul 17 2007, 12:08pm*

national / injustice/law / opinion/analysis

A leaked transcript of a Federal Police interview with Dr. Haneef, reveals that Dr. Haneef denied all knowledge of the UK bombings and that he had given his pre-paid SIM card to his cousin over a year ago as it was no use to him outside the UK. Howard and his flunkey ministers have been exposed YET AGAIN for tampering with the facts, usurping due process and interfering with proceedings for purely political purposes.

Howard's dubious record to date clearly defines a criminal disposition and criminal intent. To date we have the waterfront attacks, children overboard, David Hicks utilised as political pawn, overt racist immigration policies, elimination of workers rights, depriving indigenous people of hard won land rights, unnecessary implementation of draconian anti-democracy laws and the countless LIES that have resulted in Australia slavishly following the US into an illegal war/holocaust in Iraq.

What does it take for people to realise who the man is behind the lies and machinations? The consequences of this pathetic little man's actions are the deaths of countless innocents, disregard for citizens (Hicks) and utilising foreigners (Haneef) for political purposes with scant regard for human rights. Howard is clearly liable for ALL his criminal actions and his thoroughly despicable un-Australian tactics - the Dr. Haneef case is only the latest example of his pathological personality at work.

But the issue that affects us all is the UNNECESSARY DEBT BURDEN we all suffer as a result of Transnational Corporations pilfering our natural wealth and NOT sharing the huge profits with the nation, as once was the case when profits from Australian companies flowed naturally into the local economy. The nation is being raped and the profits are going offshore, thanks to Howard, the laissez-faire Corporate lackey.

Howard's legacy is racism, criminal wars, holocausts, crushing debt and the most drastic fall in living standards (education/health/dental) ever experienced in modern Australia - that is the reality, not a bunch of Howard lies!

What is truly astonishing is that this criminal and his team of flunkey ministers expect Australians to vote them back into office so they can inflict more of the same injustices on us all over AGAIN!
