

Aussies eat shit and learn to like it: second rate citizens in own nation!

Fair fuckin' go! It's not enough we host a summit for the world's mass murderers, major polluters and brazen thieves and have our beautiful city of Sydney delivered from our hands by a lackey Prime Minister and an Italian fascist Premier (riding his brand new water cannon!) But to add insult to injury, and as a final gesture from overlords to the serf population -- a fireworks display on Sydney Harbour to mark the end of the APEC summit will be CLOSED TO THE PUBLIC!

Well, that tears it! I have just taken 'true' from her case. I didn't fight in Asian wars to eat American shit nor did I fight to allow a lackey coward to deliver the nation to a foreign power.

Did I watch my mates die for nothing?

I never thought I would feel it again:

the TENSION

the sweat

the FEAR

the blood

the BLINDING WHITE RAGE

crystal clarity and

the thump of delivery.

The cage door is open; the tiger is burning bright!
