

Kosovo 'elections': unsubtle Attack on Serbian Sovereignty

The military elephant of the world and its allies seem unsatisfied with fragmenting Yugoslavia into numerous ineffective, weak, dependent sub-nations; now they wish to fragment the fragments. How many times over centuries of Balkan history have the Serbian people endured victimisation, oppression, genocidal slaughter from powerful, invading or meddling nations and how many times have the Serbian people prevailed over their enemies?

The more the powers oppress, kill and marginalise Serbs, the stronger Serbian will to survive becomes. Throughout history against impossible odds the slavic Serbs have prevailed and re-asserted their sovereignty time after time.

Our culture cannot be separated from our history and our identity is forged from both.

What blind logic leads western forces to believe that suddenly the Serbian people have lost their heart, soul and spines and would happily surrender their territories to a bunch of lost Albanians and yankee-doodle-dickheads? Serbian lands defended over generations and soaked with the blood of our forefathers are never surrendered! Have the Serbs given any indication they will accept slavery, oppression and marginalisation? No, this 'election' is yet another invader's attempt to conquer and rule the Balkans - we have seen it all before and we have seen all previous invaders retreat in defeat.

Prior to engaging the Serbian people in conflict we suggest you first demonstrate your success in the Middle East where FAILURE is your war cry.

Those who imagine a feeble political manoeuvre of an illegal vote will legitimise any claim of independence have lost contact with the real world - isn't that right, Mr 'lost it' Rumsfeld, Perle, Wolfowitz and other signatories of the PNAC psychosis. We refer confused parties to international law governing Statehood and sovereignty for further clarification. A province or principality cannot declare, via a rogue election, its independence - something even American imbeciles should be able to understand!

However, we would challenge G W Bush to conduct elections based on ethnic concentrations in the U.S. particularly Florida and West Coast States, in order to set a precedent the world could then follow.

To even consider this feeble and illegal method of appropriating/attacking the last territories of Yugoslavia is the height of folly and stupidity. Try and understand that it is IMPOSSIBLE for the Serbian people to surrender Kosovo to anyone - would the American people surrender the Lincoln Memorial and the Territory upon which it stands to a foreign power? Are we beginning to understand now, Dubya, you fuckin' idiot?

Do whatever you like just remember we ALL MUST accept responsibility for our actions - something you have yet to learn in Iraq, you gibbering idiots!

The Bosnian Serb leader Dr. Vojislav Seselj displayed his contempt for the Hague Kangaroo court by identifying members as fellators: "All you members of The Hague Tribunal Registry, can only accept to suck my cock!" If you understood this in Serbian it makes for a very cutting insult indeed; I need not repeat what has been aptly stated; I would, however, INVITE THOSE IGNORANT FOOLS ALLUDED TO ABOVE, TO INITIATE A WAR WITH SERBIA.

The Serbian people have endured for a millennium and will endure till the end of the world!
