

The dickhead and his whore have landed

One look at the opulence and extravagance of Bush and his war whore companion Condoleezza Rice arriving in Sydney in a fleet of 747s while the NZ Prime Minister and other APEC leaders arrive by commercial airliners removes all doubts regarding whether or not two hundred million (plus) of taxpayer's dollars has been well spent. One is sickened by Bush's extravagance and waste, not to mention the carbon footprint of the world's biggest waste maker and polluter!

Bush and Rice

Images of war and dead children follow Rice and Bush wherever they go - death has a distinctive odour and halo that surrounds mass murderers at all times. Extravagant arrivals notwithstanding, the aura of decadence, degeneration, and outright criminality creates a faint shimmer that clings to Bush and his entire entourage - it is a DISEASE!

The city of Sydney is shamed by hosting a war criminal and mass murderer and so too its population for allowing this pre-emptive invader, torturer and child killer to enjoy our city. Serving this criminal with a warrant and placing him on trial would no doubt meet with international approval and eternal gratitude from all freedom loving people.

What is new? History books are full of murdering leaders who have profited from death and destruction - no shortages of demented monarchs either. The peasant classes and feudal economic slaves of Sydney have a perfect opportunity to see what it is they really toil for, a criminal cretin and his, 'give war a chance,' child-killing whore, all brought to you courtesy of their faithful lackey, John Howard.

Regardless of spin, lies and propaganda, capitalism equates with wealth for the few, exploitation of the weak and rampant destruction of the environment, there is no escaping those FACTS.

Bush's disgusting extravagance makes for a vivid contrast to the hellish desolation created by America in Iraq - but never question a buffoon monarch's source of wealth. It may lead to insurrection and revolution - an overdue social event no doubt.

We all have an opportunity to witness for ourselves the despicable behaviour of our rulers enjoying our city while we watch from behind steel fences!

If you imagine my blood is boiling you'd be right, I can scarce believe I haven't screamed for blood and justice but that would be illegal in our new inverted legal system where state terrorists, responsible for the deaths of millions of innocent civilians, label protesters and people of conscience 'criminals.'

Observe the murderer Bush and his war whore and ask yourselves the rhetorical question, who benefits from Capitalism, the people or corrupt elites.

All the money in the world is not worth the life of one child. This is the difference between humanism and capitalism; the latter has no heart or conscience, only one overriding principle, PROFIT (at any and all costs!)
