

The Final Challenge - 7th generation warfare

by stylus Wednesday, Sep 26 2007, 11:48pm

international / philosophy / opinion/analysis

Seventh generation warfare is the warrior's culmination or ruin; it is fought beyond the realm of binary oppositions (good-evil) and faces the most formidable enemy of all, the limitations of self! Know that mastering the 7th is the key to Final Victory. Know 'that' which prevents continuity of consciousness and totality of experience. Know the enemy that limits existence to the dictates of men/culture. KNOW and VANQUISH THAT ENEMY! There are no limitations for seventh generation Uber Warriors. KNOW that VICTORY IS YOURS!

Dynamic monism -- Heraclitus 540 BC

The irrefutable, unchallengeable reality is EXISTENCE! Existence is beyond debate or dispute, it is IMMEDIATE, constant and persistent (infinite). It offers little for the weak but is home for the brave; it makes a mockery of the revered fabrications of men/culture. It is from the basis of BEING and its limitless power of change/FLUX we make our 'stand' against the forces of Stasis/Death or CONSERVATISM, as it is known today! Death has no part in LIFE and Stasis has no part in the FLUX of EXISTENCE ["You cannot step into the same river twice!"]

Consider the mass of humanity, harnessed, servile and led by unscrupulous criminals; do we apologise to the ox for bearing the yoke, or justify our actions to the beasts that do our bidding? Have slaves and dumb beasts earned the right to be informed of our intentions? It is enough they are content with their lot and we with our opulence and wealth. Surely the right of the few to lord over the many is justified by history - it has always been so?

Who is able to break the spell and locate the chamber of the sleeping bride who dreams of emancipation? Beasts of burden and slaves are not fit for the task or able to contend. The task remains solely in the province of the Accomplished. [The world was made for them!]

The final grade begins with mastery of time and space. We are all the progeny of infinity and infinity knows no boundaries. With what means do we cut the reigns of time and space and free ourselves from mortality? Are we separate from existence; are we not part of CONTINUITY?

We are expressions of infinite creation and as such we have a direct connection to our origin - the IMPULSE of CREATION itself can be discovered in our BEING!

Have you guessed which attribute is able to breach the confines of time/space, have you guessed its abilities? Those who have not determined this weapon/attribute need not proceed it is obvious that only one attribute/quality of man is able to transcend ALL limitations. However, this same quality is also able to confine us in the most horrid, tortuous prison - as I write the esoteric meaning of a certain biblical story has been revealed. In Acts 12:1-18 Peter is jailed by Herod but is freed in 'miraculous' circumstances; the verses laden with (esoteric) symbolism are these:

4. And when he had apprehended him, he put him in **prison** and delivered him to **four quaternions of soldiers to guard** him, intending after **Easter** to bring him forth to the people.

5. Peter therefore was kept in **prison, but prayer** was made **without ceasing** by the church unto God for him.

6. And when Herod would have brought him forth, that same night Peter was **sleeping between two soldiers, bound with two chains; and the keepers were guarding the door of the prison.**

7. And behold, the angel of the Lord came upon him, and a light shined in the prison; and he smote Peter on the side and raised him up, saying, "Arise up quickly." And his chains fell off from his hands.

8. And the angel said unto him, "Gird thyself and bind on thy sandals." And so he did. And the angel said unto him, "Cast thy garment about thee and follow me."

9. And he went out and followed him, and **knew not whether what was being done by the angel was real, but thought he saw a vision.**

We know that chains do not 'miraculously' fall away or prison doors magically open -- feeble minds believe what they like. We are faced with the obvious interpretation of an agent who bribed the guards and freed Peter or the more interesting aspects of a biblical story.

The events baffled Peter who was unable to determine whether he was 'dreaming' or whether the experience was 'real.' We note the symbolism of the four guards and two chains, symbolising the quadrants or earth/matter and two, the binding number of polarity. Binary oppositions qualify each other e.g. there is no day without night, no white without black, no good without bad, etc, etc., each principle is qualified by its opposite and so remains bound by and to its opposite! [It is also the number of the 'Devil.']

Neither the 'four,' principle of gross matter (prison) or the 'two' (self-imposed shackles) offer release or transcendence; however, the episode transpires at Easter, which to the early Christians held the promise of immortality via rebirth/resurrection.

Peter was sleeping between two soldiers and bound with two chains, a very odd configuration if taken literally -- unless of course it was a gay jail, which obviously it was not (jokes aside). A third, motivating factor must be introduced into this very dodgy situation or Peter is doomed to rot in prison with two very questionable characters keeping him company (while he is bound in chains!) At this point I am simply highlighting the thorough inanity/imbecility of literal interpretations of Scripture.

The motivating/liberating factor is introduced as “unceasing prayer” or one-pointed, sustained, focused/concentration OF THE MIND, and that dear reader is the point of relevance to the article, but to continue with Peter’s dilemma.

Peter is ‘magically’ freed from prison (society/culture) and his shackles (perceived personal limitations) by the power of unceasing prayer or sustained mental focus, the divide between matter and spirit or dream and waking becomes blurred as he realises his freedom. It seems that via the faculty of appreciating reality we are also able to affect reality. The ‘real’ becomes equal in status to a ‘dream;’ and for those able to engage in complete absorption, dreams become amenable to the dreamer and so our realities are modified by our will and skill.

The Uber Warrior who has mastered the 7th is able to affect reality by intervening in the process of its manufacture and altering its course as he/she wills. The trained and developed will of the Uber Warrior becomes a weapon of awesome capability, able to kill or heal through space. In effect whatever the UW thinks with intent becomes reality.

No barriers or obstructions exist for 7th generation Uber Warriors; they have realised their essential nature - what has been referred to by the ancients as the face you had before you were conceived. Time and space limits sheeple only, VICTORY is for those who wage 7th generation warfare and develop the mental attributes that lead to EMANCIPATION.

The accomplished formulate reality and are only affected by Warriors of greater skill. The “ruin” in the introduction refers to insanity - the prize for failing to achieve the 7th level is lunacy. However, do not despair, the USA has proven that lunatics and imbeciles are able to lead nations and affect the reality of others. So you see failure is relative.
