

Social consequences

While the 'bewildered herds' of the West bray and bleat, the aware fight on - life scintillates for those who choose to live it and is Bliss for those who choose to FIGHT, moooo!

This week has seen some remarkable events; a meat-eating Buddhist monk received an award from a nation that is responsible for the worst holocaust of the 21st century; it may be time to review the basic tenets of Buddhism, Tenzin, you reprehensible HYPOCRITE and bald-faced FRAUD! Your actions may arouse the la la's and space cadets from their somnambulistic trance but I doubt it! You have just farted in a very crowded lift, Tenzin, and all eyes are on YOU! How does it feel to zero your credibility by supporting a criminal nation and its actions against your fellow human beings, Mr Gyatso-Dalai Lama - what a laugh?

Your extreme and revealing actions may force your film star supporters to jump ship. They may be forced to confront the utter hypocrisy of it all and face the fact that like the Popes of the West who loved their gold, power and little boys, you are just another sordid politician masquerading as something you obviously are not! We are all too human but most people have a modicum of integrity; religious leaders clearly have none!

But the real action is in the Balkans; the consequences of stupid America and Western Europe ostracising Serbia and Serbs have resulted in Russia virtually colonising the nation. Supported by mother Russia, Serbs are now questioning the existence of the American base 'Bondsteel' on **sovereign Serbian territory**. Serbs are very nationalistic and only require a spark of leadership to unite in ONE PURPOSE against invaders and occupiers - if you think Iraq is a problem then I suggest you read history.

For a millennium Serbs have been bred in the crucible of WAR. Serbs have fought and prevailed over forces hundreds of times more powerful but less skilled than them - IT IS NOW TIME FOR YANKEE TO GO HOME - be warned!

Oh! I almost forgot, in Australia two diminutive cowards and traitors are vying for the 'leadership' of the most servile nation in the world today - something to be proud of Aussie, oi, oi, Oink! Remember the days Oz had real leaders, take a look at the field today then take a look around the globe at REAL MEN fighting for their RIGHTS?

What a bunch of shrinking nothings Aussies have become. It makes no difference whatsoever which SERVANT wins the election in Oz, the job of 'Governor' of the latest U.S. colony is clearly defined; lackeys can but FOLLOW - excuse me while I spit!

Have YOU ever fought against the odds and WON - there is nothing like it, absolutely nothing?

Howard and Rudd -- you're kidding! Is this some sort of 'democracy in action' joke?

"I love a sunburnt country," *BARF!*
