Analysts, the socially informed and criminal elites are acutely aware of the horrendous environmental calamity we are now facing. Do not be deceived, 'tipping points,' 'thresholds,' 'runaway effects,' 'irreversible forces,' have already been activated, passed, breached, exceeded! We are actually living on borrowed time NOW! However, it has already been decided that the masses - that's you and me - are EXPENDABLE! High quality arable land has already been commandeered by the powers for bio-fuel production; the obvious consequences of this action are massive food shortages and skyrocketing prices in the very near future - is a picture slowly forming in the dull brains of the sheeple?

Rapid price increases and shortages favour the elites, those on the margins are affected first then very rapidly the lower, middle and upper layers of society - BUT not the elites who have already planned for these contingencies, principally because they are responsible for their creation!

The masses couldn't save themselves if their lives depended on it; they have failed to act in the face of the most reprehensible, murderous, criminal activity perpetrated on their fellow human beings since the second world war. This indifference clearly indicates the masses are morally bankrupt and deserving of no consideration whatsoever. There is no shortage of factory/office or cannon fodder; over supply breeds contempt!

Surely it should now be obvious that no consideration is given by elites for anyone. Their present actions of plunder, theft and mass murder can no longer be disguised as democracy, liberty or freedom. Who imagines they would avoid a similar fate if social pressures suddenly increased; environmental chaos promises to deliver hardship in every community?

Since we have so tragically failed the test by ignoring the fate of our brothers we are doomed to share in a similar fate - silly people. WHAT YOU DO TO YOUR BROTHER YOU DO TO YOUR SELF!

But isn't it all about ME? Yep, this is Uncle Sam's new reality, a star-spangled gift to the world -- the PNAC ideology in action for those not yet aware. 'Ride on the tip of my gun or kill me if you can,' the slogan of rustics and brutes.

Victory lies in the EMBRACE. Every 'guerilla fighter' is aware that the 'close embrace' ensures final victory. There is no avoiding the fact that in UNITY lies the only chance for survival in today's world. Never forget, divisionists are poison!

We are One.
