The American led western (NATO) criminal alliance is crumbling -- as criminal empires often do! A report on BBC radio finally stated an open fact to the people. A fact that NATO/US and even insignificant Australia have known for some time; a military 'victory' in Afghanistan is "impossible!"

Today's 'Taliban' have been described as a confederation of tribal leaders, warlords, drug barons, religious leaders, clan elders and other influential Afghans. Unlike Arabs who have much to learn from unconquerable Afghanistan, diverse and ferociously independent groups traditionally put aside any differences to form COOPERATIVE alliances and a UNIFIED FRONT against enemy invaders and occupying foreign forces. Afghans traditionally unite to fight a common enemy; military failures from the time of Alexander the Great through Imperial Britain, Russia and now idiotic America and NATO highlight the fact!

America's flagrant criminal pursuits are facing challenges in the Balkans, Africa, Asia, the South Pacific, Latin America, Central Asia and of course the Middle East; scarce little remains of the globe to rally behind a most despicable and MURDEROUS criminal empire - down you go Uncle, make no mistake about it! You were warned that pursuing the rabid policies of the ultra-right and Washington Zionists would lead the nation to ruin.

We thank the maniacal Bush administration for defeating the nation from within. In the shortest imaginable period these forces have ruined the economy, destroyed democracy and established America as the most hated nation on the planet - no mean feat! Yet the pariah seems to have learnt nothing. If the world is forced into a military conflict then the pariah will be reduced to ashes, a fate that many demented Americans (religionists) actually embrace!

However, it's never too late to abandon destructive government and the puppet two party system for real democracy in America. It's never too late for the people to FORM A UNIFIED FRONT AND MARCH ON THE CAPITAL. The impoverished nation of Afghanistan has a great lesson to teach the people of the world. All disparate groups and diverse communities can set aside their differences and UNITE TO SUCCESSFULLY SAVE A NATION!

We are ONE
