

Washington and Hashim Thaci - a criminal alliance

Washington -- as divorced from reality and as thoroughly incompetent as ever -- is labouring under the misapprehension that it is able to indefinitely ignore International Law and dismember Sovereign European States! It is clear America persists with its 'stunningly astute' "mission accomplished," "bouquet of flowers," "known unknowns," "broken the back of the insurgency" DREAM WORLD! However, analysts are aware that Washington's latest statements are the result of panic and impending ECONOMIC and INSTITUTIONAL COLLAPSE. Reality dictates it is America that faces ruin.

In view of the fact that Kosovo remains legally, historically and territorially Serbian, the U.S. State Department's astonishingly stupid statement that "Kosovo will never be part of Serbia again" lacks all substance. The FACT is KOSOVO REMAINS SERBIAN and WILL CONTINUE TO REMAIN SERBIAN AS LONG AS THE SERBIAN PEOPLE EXIST! There is nothing the USA can do to alter that REALITY except MURDER every Serb on the planet - do we finally understand?

All attempts to illegally declare independence and install a known leading criminal, Hashim Thaci, as head of an illegal state are doomed to fail from the outset -- we refer researches to the very short life of all past criminal regimes in Europe. The illegitimate Thaci 'government' will prove to be the shortest lived of all.

The world simply cannot tolerate or withstand the destabilising effect that the illegal precedent of Kosovo presents. Only America seems oblivious to the FACT. America's European allies are engaged in a losing poker bluff - THE HAND IS LOST GENTLEMEN; THE SOONER SANITY PREVAILS AND LAW IS RESTORED THE BETTER FOR EUROPEAN STABILITY. CRIMINAL AMERICA is clearly in RAPID DECLINE, blind Freddy can see what Washington cannot!

The only realistic solution for Kosovo is autonomy under Serbian sovereignty. Muslim terrorist groups, drug syndicates and other criminal organisations MUST BE ERADICATED NOT ENCOURAGED! All known criminals, including Hashim Thaci and his infamous, criminal brother in law, Sejdija Bajrush, must face the courts if stability is to be restored in the region. Complications only arise when distant nations have IMPERIAL AMBITIONS in the region!

Wake up Europe! Sanity must prevail and all interference from FAILING IMBECILE NATIONS must be rejected!
