

Super Hornet -- super disgrace!

by barra *Monday, Mar 17 2008, 8:47pm*

national / social/political / commentary

The only minister in the present Australian Labor government who displayed any integrity or spine has backflipped on the purchase of the Super Hornet jet fighters from America - what a thorough travesty and disgusting reversal! It is a matter of public record that the Super Hornet is inferior to the Jet Fighters purchased by Indonesia from the Russians -- at considerably less cost I would add.

Air supremacy has effectively been surrendered to Asia, brilliant! Defence Minister Fitzgibbon's reversal indicates that the disgraceful malaise of cowardice and servility expressed so vividly by former PM, Howard, also infects the present 'Labor' government. As an independent sovereign nation we are lost! Condemned by our fuckin' useless, gutless, leaders to colonial servitude. MAKE NO MISTAKE ABOUT IT!

It is now abundantly clear that the nation lacks men AND WOMEN of character, mettle, skill and real leadership qualities in government, regardless of which party is elected. What a thorough travesty and shame this nation has to endure! Like it or not every Aussie has become an international laughing stock, never before has the nation had to endure such shame!

Every Australian is stained by the cowardice of our 'leaders,' we have become insignificant fleas accommodating the whims of larger nations - we are perceived as nothing more than a piece of convenient real estate for yank bases and a hole in the ground to feed resource hungry nations. A fitting reward for the world's most cowardly nation.

Do not complain of your lot Aussie; you have earned your minuscule share of the billions that are pilfered from the nation yearly -- you pathetic bunch of servile nothings, oi, oi, oink!

The issue of OUR national security has been surrendered to the fuckin' yanks yet every retard is aware the yanks only pursue their own interests! What amount should the yanks pay the nation for transforming us into a high priority nuclear target? Answer that, Fitzgibbon, you miserable excuse for a defence minister!

We were all aware of the pressure you were under to toe the American line but YOU caved like the good new Aussie male that you are -- I would spit if my mouth wasn't so dry from rage!

Go and get yourselves well and truly fucked -- the lot of you!
