

Inverted realities and illogic as warfare

If Truth is the first casualty of War then Lies are the first weapons!

Events this week highlight the madness that currently grips the international community. Many instances of Orwellian 'double speak' could be culled from the inane propaganda disseminated by US/NATO forces during their illegal bombing of former Yugoslavia in 1999. Add to that the nonsensical (mad) drivel that has issued from the mouths of American leaders in relation to Iraq and Iran over the past five years and the fictional absurdities (Mad Hatter's tea party) of some English novelists begin to look tame. But events this week pushed the envelope of incredulity to levels that even the most dim-witted, inbred, American rustic would find difficult to bear!

Fraud: who, me?

Perhaps the epitome of the current madness comes in the form of the Dalai Lama announcing to the international media that he had 'NOT INSTIGATED' the carefully planned recent Tibetan protests! No doubt the perfectly timed almost simultaneous violent protests around the world were a demonstration of spontaneous Tibetan telepathy! We should never forget that Tibet is a land steeped in magic, myth and mystery! Not too much attention should be paid to the horrendous paedophilia and homosexual practices that occurs in Tibetan monasteries; faithful delusionists and western space cadets should also ignore other distasteful Tibetan social realities - especially feudal inequities!

The shameless politician and bald-faced LIAR, his 'holiness' the Dalai Fraud -- after accepting honours from the world's leading mass murderer, George W Bush -- expects us to believe his feeble and transparent LIES - in YOUR dreams!

Religious leaders consorting with criminals and mass murderers in the West is historical fact; a long and sordid tradition of religious hypocrisy taints Western history! However, burnt out film stars, space cadets and assorted delusionists have not yet realised that 'religious' leaders in the East are no different to their hypocritical counterparts in the West! Accepting honours and a gold medal from George W Bush is anathema to the extreme pacifism of Buddhist philosophy - "good fellowship" is the rule in Buddhism, not consorting with mass murderers. A cursory reading of Buddhist

philosophy/theology easily exposes the Dalai Lama as a shameless hypocrite and fraud!

The recent visit of the Dalai Lama to Washington for talks at the highest levels; the US supported illegal secession of Kosovo and the attacks on Chinese sovereignty by Tibetan rioters around the globe clearly are not unrelated events! We are not inclined to interpret these events outside the obvious expansionist wars currently being waged by America and her few allies.

We leave you with the most absurd example of inversion or double speak this week. It issued from the mouth of a representative of the criminal secessionist government of Kosovo – it should not be forgotten that according to International LAW and UN charters, Kosovo remains Serbian sovereign territory!

Following Serb protests in Northern Kosovo, deputy prime minister of the illegal Muslim government, Hajredin Kuqi, called on NATO to defend the secession. *“There can be no compromise when it comes to the rule of law,”* he said!

The future of the world is plain to see!
